1.0 Introduction

Prevent is one strand of the Government's counter-terrorism strategy CONTEST (Pursue, Protect, Prepare, Prevent). Its aim is to stop people from becoming terrorists or supporting terrorism.

The UK Government's definition of extremism (March 2024) is:

"The promotion or advancement of an ideology based on violence, hatred or intolerance, that aims to: (1) negate or destroy the fundamental rights and freedoms of others; or (2) undermine, overturn, or replace the UK's system of liberal parliamentary democracy and democratic rights; or (3) intentionally create a permissive environment for others to achieve (1) or (2)."

2.0 National Threat Level

There are 5 categories at which the threat levels could be set:

- LOW - an attack is highly unlikely
- MODERATE - an attack is possible, but not likely
- SUBSTANTIAL - an attack is likely
- SEVERE - an attack is highly likely
- CRITICAL - an attack is highly likely in the near future

[Threat Levels | MI5 - The Security Service](#)

The current UK threat level (JTAC, July 2025) is:

Substantial – an attack is likely.

Threat levels are regularly reviewed and staff will be informed of the alert to changes.
